PROFESSIONAL SUMMARY

Full Stack Developer skilled in Spring Boot, React Native, Angular, and REST API development with hands-on experience building scalable web and mobile applications. Strong understanding of backend architecture, database management, and real-world project implementation with a focus on clean code and performance optimization.

EXPERIENCE

Software Developer Intern — Vedaniti Technologies

June 2025 – Aug 2025

EduLearn (Backend + Mobile App)

- Designed secure REST APIs for course management, user onboarding, and enrollments using Spring Boot.
- Integrated Razorpay payment gateway with automatic course enrollment.
- Developed mobile application using React Native for course browsing and video streaming.

RentoTrack (Backend + Mobile App)

- Built REST APIs for flat listings and tenant management improving data handling efficiency..
- Implemented soft delete mechanism and optimized database handling using JPA and PostgreSQL.
- Developed React Native application with dynamic UI and multilingual (i18n) support.

Vedaniti Website (Backend)

- Developed backend APIs for chatbot, career, and contact modules.
- Implemented file upload functionality using MultipartFile and stored data using PostgreSQL BYTEA.
- Added logging (SLF4J) and centralized exception handling.

Trainee Developer — Kiran Academy

Sept 2024 – March 2025

Prism Attend (Web Application)

- Developed backend modules for attendance tracking and user management.
- Implemented CRUD operations using Java, JDBC, and MySQL.
- Applied MVC architecture to improve maintainability and application structure.

Web Developer Intern — Teachnook

Oct 2022 – Nov 2022

- Built responsive web applications using HTML, CSS, and JavaScript.
- Integrated APIs and improved UI/UX design for enhanced user experience.

TECHNICAL SKILLS

Languages	Java, JavaScript, SQL, HTML5, CSS3
Frontend	React, React Native, Angular, Bootstrap
Backend	Spring Boot, Hibernate, REST APIs
Databases	MySQL, PostgreSQL
Tools	Git, Maven, Postman, Swagger, IntelliJ IDEA, VS Code
Concepts	OOP, MVC Architecture, CRUD Operations, Exception Handling, DSA
APIs	Razorpay API, Twilio API, OpenWeather API

PERSONAL PROJECTS

• Taskora — Full Stack Developer	Live Demo
• ClimeX — Frontend Developer	Live Demo
• Social Media Post App — Angular Developer	Live Demo

EDUCATION

Bachelor of Technology in Computer Science and Engineering Graduated: 2024	Nagpur University Percentage: 80.20%
Diploma in Computer Science Graduated: 2021	MSBTE Percentage: 81.37%

CERTIFICATIONS

• Java Full Stack Development – Kiran Academy (2025)
• Web Development Internship – Teachnook (2022)

ACHIEVEMENTS

• Solved Data Structures and Algorithms problems on LeetCode using Java.
• Developed full-stack and mobile applications using Spring Boot, Angular, and React Native.
• Hands-on experience integrating REST APIs, payment gateways, and database optimization.
